Re-Create your Voice

The Star of Vowels - Copyright by Michael Vetter/Natascha Nikeprelevic 1983/2013

Voice & Instrument - Crystal-Clear Overtones - Voice Improvisation

This coaching is aimed both at vocalists and at instrumentalists who want to explore their voice in the context of an instrument. Natascha Nikeprelevic lures out the individual intuitive potential of each participant and develops ways for its poetic realization. In addition we train our vocal possibilities including melody, breath, noise and overtone singing to get a multidimensional music expression.

Also we will get into different approaches to accompany our voice with instruments (you can bring your own if you like).

We also focus on gaining theatrical volume and power of expression not only in the technique of overtone singing. We successively transform speech to sound, and when poetically shaped this will result in music.

Re-create yourself !

Application

The voice coaching is open to everybody who wants to discover their voice in communication with the body in a new way. People with current and/or previous experience on voice, experimental singing, overtone singing and improvisation on an advanced level, professional musicians, singers, instrumentalists, actors, composers and also laymen are warmly invited.

Ask for Info Paper & Application-Form when you want to apply for a voice coaching. Choose your individual date.

Location - Monastery of Music

Coachings, single lessons and voice retreats will take place at Monastery of Music. Monastery of Music is a platform, a place, a source where artists and all those interested in the performing arts can offer or can take part in coachings, retreats, artist-residencies. It is a place to meet and refuel, where choirs, bands, ensembles or other groups of artists or people can rehearse and/or record, reflect and recreate surrounded by the inspiring nothingness of pure nature.

Monastery of Music is hosting an annual Meeting for Recreation founded by vocalist Natascha Nikeprelevic in 2022. Monastery of Music is a property located in Tuscany on a mountain's westside, surrounded by olive groves and fruit-trees. The terrain is located in a prominent position at an altitude of 600 m in dreamlike seclusion.

Surrounded by tranquility and nature you are invited to enjoy the strong and magic atmosphere of that place. The place is in the middle of nature and so we have the unique chance to hear or even see animals that you cannot experience in an urban structure. All evening you have the possibility to overlook the magnificent landscape from the panorama terrace and enjoy the sunset. The heart of the property is a 200 sqm performance & meditation space where all coaching units will take place.
